

SNC•LAVALIN

Chemicals & Petroleum Division

The Future

.....is Now!

The Chemicals & Petroleum Division of SNC Lavalin Inc., an ISO 9001 registered, world class leader in providing Engineering, Procurement and Construction services to the Oil, Gas and Chemicals Industries, is currently involved in several major projects around the world. We have an immediate need for qualified people at all levels with a minimum of two years of Petroleum/Petrochemical experience

The successful candidates for the available positions will possess significant experience that has been acquired through progressively more challenging and complex EPC engineering/technical environments.

Instrumentation Engineers, Designers

Design & implementation experience for instrumentation and Control related to DCS, PLC analyzers and field instrumentation applications in the Oil & Gas Industry.

Process Engineering

Specialists in front end process design, detail engineering (including P&ID development), start-up and commissioning.

Mechanical Engineering

Specialists in Rotating equipment (Pumps, Compressors), Heat Transfer technology (Heat Exchangers, Air Cooler, Fired Heaters), Pressure Vessel design and selection.

Project Engineers/Managers

International experience managing Lump Sum and/or Lump Sum Turnkey projects related to petroleum and petrochemicals.

Chief Estimator

Proven team leadership skills with minimum 15 years construction related estimating experience involving extensive knowledge of contemporary computer applications in preparation of lump sum and unit price contract estimates for oil and gas projects.

Planners/Schedulers

Lump Sum, international EPC experience combined with contemporary level computer literacy with demonstrated ability to prepare and manage complex engineering and construction planning/scheduling.

Cost Controllers

Proven experience in the computer based assembly and preparation of project cost data including financial and trend analysis, forecasting and completion of impact assessments.

Engineers must be registered or eligible for registration in the Province of Alberta. Technicians should possess a diploma from an accredited Technical Institute or have equivalent experience. These positions require individuals who can demonstrate solid inter-personal and organizational skills as well as the ability to work effectively in a task/team environment under demanding time-line pressures.

We are an Equal Opportunity Employer. If you have these qualifications and would like to be part of a dynamic engineering team, fax or hand deliver your resume in complete confidence before Wednesday, April 12, 1995 to:
