Wednesday April 12th, 1995.

Dear Sirs,

Mechanical Engineering - Rotating Equipment.

In reply to your advertisement in the "Calgary Herald" on Saturday, April 8th, I should be obliged if you would kindly consider my application for one of these positions.

A copy of my resume is attached, along with summaries of two projects which I carried out recently concerning large centrifugal pumps (600 H.P. plus).

I note that you set Tuesday April 11th as the deadline for applications. Saturday's "Calgary Herald" did not arrive here in Ottawa until last night, which is why I did not respond sooner. Consequently I would expect you to still give serious consideration to my application.

Yours faithfully,

ROBERT T. CHISHOLM B.Sc.Hons.(Eng.), C.Eng.(U.K.),  
M.I.Mech.E.(U.K.), Jr.Eng.(Quebec).
