

" A well-understood social role

The SNC Group believes it is its duty to be a good corporate citizen, be it in Montreal or elsewhere in Canada. Especially in those difficult times, we must do our share to alleviate poverty. For this reason the President and Chief Executive Officer-like his predecessor-- agreed to co-chair the 1991 Centraide campaign. SNC Group employees have emulated their managers and shown their generosity with donations ranking in the top echelon. As a group, they won, for- the \_sixth year in a row, a gold certificate awarded to companies with a better than 85 per cent participation rates and an average donation of over \$55. The SNC Group is also a leader in the top-donors category - those giving \$1,000 or more- since it can count 19 of them within its ranks.

As a company we also wish to salute the contribution made by many of our employees to their respective communities.

Towards the definition of a new economic space "
